ORLANDO, FL, June 12, 2023 — Simulocity, LLC (Simulocity) is proud to announce that it was awarded a 5-year contract with the National Science Foundation (NSF), to improve NSF's business processes with a technological transformation and supportive maintenance.

These services encompass working with business process automation and robotics. Simulocity will work with the NSF to deliver an optimized approach to tackling high-impact, high-value projects that demonstrate business acumen and convey tangible benefits to the organization. Team Simulocity will develop the foundations to drive cultural and operational improvement through a business process transformation taxonomy and framework.

With over 2,100 brands served around the globe and dozens of industry-specific (award-winning) platforms, including virtual training centers, Simulocity will help design ecosystems that deliver outstanding experiences while training and educating stakeholders on processes, tools, and techniques.

About the National Science Foundation:

The National Science Foundation (NSF or Foundation) is an independent agency of the U.S. Government, established by the National Science Foundation Act of 1950. NSF funds research and education in science and engineering. It does this through grants, contracts, and cooperative agreements with more than 2,000 colleges, universities, and other research and education institutions across the United States. The Foundation accounts for approximately 20 percent of federal support to academic institutions for basic research.
