

Simulocity Unveils Next-Generation Immersive-Interactive Marketplace Platform

Orlando, FL — Simulocity LLC, a leader in innovative digital solutions, today announced the launch of its groundbreaking next-generation immersive-interactive marketplace platform. This cutting-edge technology is set to revolutionize how businesses across all industries engage with their customers, partners, and stakeholders.

The new platform leverages advanced virtual reality (VR) and Artificial Intelligence (AI) technologies to create a fully immersive digital marketplace experience. It offers unprecedented levels of interactivity, allowing users to explore products, services, and information in a highly engaging 3D environment.

"Our next-generation immersive platform represents a significant leap forward in digital marketplace technology," said Dr. Manny Dominguez, CEO of Simulocity. *"We've created a versatile solution that can be customized for any industry, from healthcare and education to retail and manufacturing, powered by artificial intelligence, virtual shops, clinics, and business departments, across any industry. This platform will transform how businesses showcase their offerings and interact with their audience."*

Key features of the new platform include:

- Customizable 3D environments tailored to each industry's specific needs
- Real-time collaboration tools for seamless communication between users
- AI-powered recommendations and personalized user experiences
- Integration capabilities with existing e-commerce and CRM systems
- Advanced analytics for detailed insights into user behavior and preferences

The platform's versatility makes it suitable for a wide range of applications, including the digital transformation of organizations involved in real estate, healthcare, smart cities, trade shows, training, and business. This award-winning platform can be customized with interactive product demonstrations, immersive training simulations, and engaging customer experiences.

"We're excited to see how businesses will leverage this technology to create innovative and engaging experiences for their audiences," added Dr. Dominguez. "The possibilities are truly endless, and we believe this platform will set a new standard for digital marketplaces across all sectors."

Simulocity's next-generation immersive-interactive marketplace platform is available for early access to select partners, with a full commercial release scheduled for Q1 2025.
